Remarks

Claims 1-15 are pending.

Claims 1-10 and 12-15 are allowed.

Claim 11 is objected to as having a multiple dependent format.

The specification has been amended to move the "Summary of the Invention" and the "Detailed Description of the Preferred Embodiments" titles in line with what the Examiner requested. Applicants have additionally moved the section corresponding to the "Brief Description of the Drawings" to have the format of the application be consistent with US patent practice.

Additionally, the language of the Summary of the Invention referred back to the claims themselves has been removed, as these types of statements are typically not used in US practice.

Claim 1 has been amended to correct the spelling of the term "signaling" to "signaling".

Claim 11 has been amended to correct the multiple dependency of the claim to become dependent on Claim 1. This was requested to by the Examiner.

No new matter was entered in to the specification in view of these amendments.

As this is *Ex Parte Quayle* action, Applicants have complied with the requests made by the Examiner. Accordingly the allowance of this application is respectfully solicited. If, however, the Examiner is of the opinion that such action cannot be taken, the Examiner is invited to contact the Applicant's attorney at (609) 734-6809, so that a mutually convenient date and time for a telephonic interview may be scheduled.

It is believed that no fees are owed in connection with this response. If any fees are owed, please charge the fee to Deposit Account 07-0832.

Respectfully submitted,
